

Gazi Arman Islam

Software Engineer | Full-Stack Developer | AI Engineer

✉ gazi.arman.islam@g.bracu.ac.bd | 📞 01714437828 | 🌀 [arman-nivo](#) | [in linkedin](#) | 🌐 [Portfolio](#)

Professional Summary

Full-Stack Developer with 2+ years of experience building scalable web applications using **Laravel, React.js, Django, Flask, MySQL, and PostgreSQL**. Experienced in REST API development, payment gateway integration, authentication systems, and deployment workflows. Built multiple production-level e-commerce and analytics platforms with strong focus on performance, clean architecture, and user experience. Comfortable working in Agile teams, communicating with clients, and delivering projects within deadlines.

Work Experience

Mid-Level Full Stack Developer — [Zatiq Easy Limited](#)

June 2026 – Present

- Architect and develop full-stack web applications using **Laravel, React.js, Node.js**, and **MySQL**.
- Build scalable backend systems and **REST APIs** to support enterprise-level business operations.
- Develop modern, responsive interfaces with **React** while ensuring optimal experience and performance.
- Integrate **AI-powered features**, payment gateways, and external APIs into production systems.
- Improve scalability and reliability through performance optimization and efficient database design.
- Collaborate with product, design, and engineering teams to deliver high-quality software solutions.
- Maintain source code using **Git**, perform code reviews, and contribute to deployment and release processes.
- Troubleshoot complex technical issues and implement solutions that enhance system stability and security.

Software Engineer — [neoNexor](#)

July 2025 – June 2026

- Communicated with clients to understand project goals, requirements, and technical needs.
- Translated business requirements into clear technical plans, workflows, and project structures.
- Designed and developed applications according to approved specifications.
- Built backend and API features using **Laravel/Django** framework.
- Developed dynamic and responsive front-end interfaces using **React**.
- Built **CMS-based e-commerce platforms**, ensuring smooth functionality and scalability.
- Integrated modern front-end frameworks with **backend systems** for full-stack solutions.
- Optimized performance, ensured **cross-browser compatibility**, and followed UI/UX best practices.

Executive — [TechGarlic](#)

October 2023 – May 2025

- Analyzed large datasets to discover business insights and improve strategic decisions.
- Automated **interactive Power BI dashboards** to track company KPIs and operational metrics.
- Conducted **sentiment and trend analysis** using Python NLP libraries to understand user behaviour.
- Prepared detailed **data-driven reports and visual summaries** for internal and client presentations.

Freelance Web Developer — [Fiverr](#)

March 2020 - 2021

- Delivered **17+ international projects** combining frontend and backend technologies.
- Developed dashboards and analytics views using **React, Bootstrap**.
- Maintained excellent client satisfaction through clean design, efficient communication, and on-time delivery.

Projects

AI-Powered Quiz And Answer Evaluation System (Flask, Python, SQLite)

Link to Project

- Developed an AI-powered multilingual quiz evaluation system using **Flask** and **SQLite**, supporting dynamic question generation by subject and difficulty with full CRUD operations.
- Implemented semantic answer grading using **Sentence-BERT (bert-base-multilingual-cased)** with cosine similarity on sentence embeddings to evaluate responses beyond keyword matching.
- Integrated **mT5 (google/mt5-small)** for multilingual NLP processing, enabling robust handling of English and Bangla text through Unicode normalization.
- Designed a RESTful backend with **CORS-enabled APIs** for seamless React frontend integration, storing detailed user performance metrics including similarity scores, correctness, and timestamps.

Laravel E-Commerce Platform (Laravel, Blade, SQL)

Link to Project

- Built a production-ready Laravel e-commerce platform with authentication, and checkout modules.
- Developed RESTful APIs and integrated **bKash**, **Nagad**, **Steadfast**, and **Pathao** services.
- Designed relational database schemas and optimized SQL queries for performance.
- Implemented admin dashboard, email notifications, and role-based access control.

Zero-Vision (Laravel & SQL)

Link to Demo

- Developed a data-centric platform for monitoring and visualizing user metrics.
- Designed a **role-based authentication system** for secure data access and analytics.

Booking Event Management (React & MongoDB)

Link to Project

- Built event tracking modules with **real-time analytics and financial insights**.
- Integrated visual dashboards using **chart.js** and MongoDB for data persistence.

Academic Background

B.Sc. in Computer Science and Engineering Brac University, Dhaka, Bangladesh	Passing year 2025
Higher Secondary School Certificate (HSC) Noakhali Govt. College, Noakhali, Bangladesh	Passing year 2019
Secondary School Certificate (SSC) Arun Chandra High School, Noakhali, Bangladesh	Passing year 2017

Thesis and Publications

Generative AI Meets Responsible AI and Affective Computing

EEE Conference

- Research focuses on multimodal 3D emotion recognition using **text, image, and voice**.
- Novelty includes introducing **parallel emotional dictation** and creating an **exclusive dataset**.

Machine Learning-Driven Energy Demand Forecasting for Sustainable...

IEEE Conference

- **machine learning-based predictive framework** for hospital energy demand forecasting.
- Optimized forecasting supporting up to **12% potential energy savings** and reduced carbon footprint.

Technical Skills

Languages	PHP, Python, JavaScript, SQL, HTML5, CSS3
Frameworks	Laravel, Flask, React.js, Next.js, Bootstrap
Databases	MySQL, PostgreSQL, SQLite, MongoDB
Database Skills	Query Optimization, Indexing, Normalization, Backup & Recovery
Backend & APIs	REST API Design, CRUD Operations, Role-Based Authentication
DevOps & Tools	Git, GitHub, Linux, CI/CD Concepts, Database Deployment Workflows
AI / ML	Sentence-BERT, mT5, Cosine Similarity, NLP, Semantic Search
Other	Agile/Scrum, Cross-Browser Compatibility, UI/UX Best Practices, Chart.js

Core Strengths

Strong Client Handling & Communication Skills — experienced in managing client requirements, expectations, and long-term professional relationships. Problem-Solving, Project Coordination, Collaboration & Teamwork, Time Management, Ownership & Accountability, Adaptability, Fast Learning, Critical Thinking, Troubleshooting, Deadline Management

Certifications & Courses

LinkedIn Learning	Data Analytics Fundamentals, Python for Data Science	All Certificates
Self-Learning	Full Stack Web Development, Machine Learning, Flask API Integration, PostgreSQL Administration, SQL Optimization
